Projects

Meet Up | github.com/brandonnorsworthy/meet-up | <https://uta-meet-up.herokuapp.com/>

- Full Stack web application which allows users to create accounts and post events to the main timeline, Users can also respond to posts and upvote liked events.
- Built front end web design and most sequelize queries as well as maintaining deployed server.
- JavaScript, Bootstrap, Express.js, Sequelize, Handlebars, CSS, HTML5

Pet Seeker | github.com/brandonnorsworthy/pet-seeker |

<https://brandonnorsworthy.github.io/pet-seeker/>

- Tinder-Clone which takes the users location and incorporates the PetFinder API. It uses the local adoptable pets in shelters giving a description and facts about that breed using the DogAPI.
- Maintained Repository Code, Outlined Issues for other Collaborators, Focused on Dynamic Reusability in APIs and Functionality
- Bulma CSS Framework, JQuery, PetFinder API, DogApi, Javascript

Weather Dashboard | github.com/brandonnorsworthy/uta-weather-dashboard |

<https://brandonnorsworthy.github.io/uta-weather-dashboard/>

- Weather Dashboard using Open Weather API that runs in the browser and features dynamically updated HTML by taking user input of selected location.
- Created very responsive website by using Bootstrap, Calls api to request weather based on input, Previous search history saved in the DOM and created using JQuery
- JavaScript, Bootstrap, JQuery, OpenWeather API, Moment.js

Work Experience

Employee

2016– 2021

H-E-B Grocery

Spring, TX

Responsible for quality assurance in every mobile order. Worked without supervision expected to maintain best quality while being time efficient. Selected by Manager to de-escalate tense situations that rose between another employee and a customer

Key Accomplishments:

- Received partner of the month January 2017
- "Harvey Hero" for working during Hurricane Harvey when others couldn't, helping get groceries to everyone in my local area

Education

Full Stack Bootcamp Certificate: Graduation **September 2021** | **University of Texas**, Austin
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
